

SSP-3400

Stainless Steel Platform

The SSP-3400 stainless steel multi-purpose bench platforms are designed for use in today's wet and corrosive industrial environments. The SSP-3400 is constructed utilizing heavy-duty 304 stainless steel with a stainless steel weigh pan, and a sealed load cell

SSP-3400

STAINLESS STEEL BENCH PLATFORM

STANDARD FEATURES

*** RUGGED 304 STAINLESS STEEL CONSTRUCTION:**

Heavy duty stainless steel construction with additional understructure channel supports, assures durability with precision in wet and corrosive environments.

*** LOAD PROTECTION:**

Mechanical overload stops incorporated with the heavy-duty double plate design assures superior overload ability.

*** RUGGED 304 STAINLESS STEEL WEIGH PAN:**

All SSP-3400's come equipped with a heavy gauge stainless steel weigh pan that is designed for heavy washdown applications.

*** SIMPLE INTERFACE AND SETUP:**

The SSP-3400 comes equipped with 20 feet of load cell cable with a 14 pin amphenol connector and 4 adjustable leveling feet.

*** FULL 1 YEAR WARRANTY**

*** LEGAL FOR TRADE:**

NTEP Pending

Options

Stainless steel roller ball top: Available on 18" x 18" and 24" x 24" Stainless Steel Load Cell

Specifications

Base Construction: Type 304 Stainless Steel including hardware

Shroud: Type 304 Stainless Steel

Load Cell: Sealed Single Point Aluminum

Load Feet: Four, threaded adjustable foot pads.

Power Requirements: 5-15 Volts DC Excitation

STAINLESS STEEL CONSTRUCTION

Shown below with overload stops in each corner to help prevent or reduce load cell damage from heavy duty industrial use.

Shown at right with the stainless steel weigh pan removed, the SSP series bench scales are built tough to withstand daily use in wet and corrosive industrial environments.

SS Ball Roller Top

CAPACITIES	SIZES
10, 25, 50, 100 lb	10" x 10" x 3"
10, 25, 50, 100 lb	12" x 12" x 3"
250, 500, 1000 lb	18" x 18" x 5"
500, 1000 lb	24" x 24" x 5"
